QUICK START GUIDE

FÖRSTER TECHNIK®
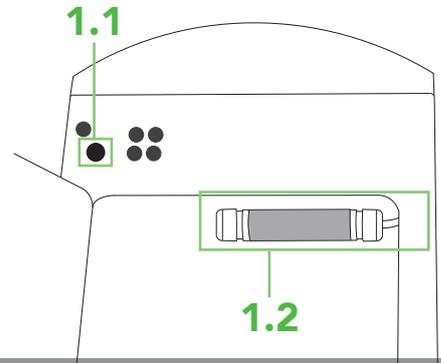

Automatic calf feeder

2.3 CalfApp GO! & CalfCloud

This document provides a brief overview of how to get the calf feeder smart connected to the internet.

1 Internet connection

Connect the automatic calf feeder to the Internet via an Ethernet cable

1.1 Insert external Ethernet cable through the intended opening on the side of the feeder

1.2 Connect inserted Ethernet cable to the preinstalled adapter in the grey tube

1.1

1.2

2 Settings

▸Setup → Turn of the feeder → Keep [▯] pressed → turn the automatic feeder on again, keep button pressed until the Setup menu is displayed

[Devices] → [connect feeder]

This checklist refers to the basic equipment of the calf feeder. Not all available functions of the automatic feeder or the extensions can be shown. For detailed information and valid warnings as well as safety instructions, please refer to the instructions manual. (Status 21/07)

Troubleshooting

5 Error: Cloud Connection
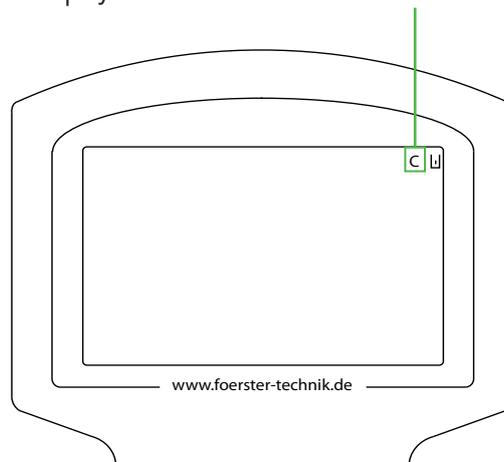

No Cloud connection

C is displayed when feeder is connected to cloud

➜ With a firewall, port 443 must be open!

➜ Check if the feeder has correct date and time!

➜ Cable connected to the right socket of the router?

➜ Cable connected at both ends?

➜ Cable intact?

➜ Right settings?   **TIP:** See Topic 1 - IP Assignment

➜ Factory mounted cable is connected to processor board?

➜ Router is connected to internet?

➜ Is internet available? *Are other participants (computer etc.) properly connected to the internet?*

➜ Restart feeder and Cloud Connection **TIP:** See Topic 2 - Device Data

➜ Check [📖] ➜ [▸Device Data] ➜ [▸Cloud] ➜ [▸Error]

↳ None: There are no errors present
↳ No eth. cable: No Ethernet cable is plugged in
↳ No Internet: There is no Internet connection available
↳ Connect.error: There is a connection error to the server

www.foerster-technik.de

6 Error: last Cloud backup not uploaded

➜ Cloud connection available?

➜ Try backup manually

7 Error: last update is outdated

Animal data ist not up to date

➜ Network connection available?

➜ Check [📖] ➜ [▸Device Data] ➜ [▸Cloud] ➜ [▸Error]

➜ Press Reload symbol in cloud (🖼) ➜ (☰) ➜ (🔄)

➜ Automatic refresh active? ➜ activate symbole in cloud
